PROJECTS

Covid - 19 - Analysis and Prediction ---- A Machine Learning Approach — *Machine Learning and Data Analysis*

This project is based on the pandemic situation (March 2020 to November 2020) of Covid-19 to observe and predict the future of India and the World. This project provides a prediction model which has predicted the situation of India upto April, 2021 and also analysed many factors based on the data. [Research Paper of this work is yet to be published]

Retrospective Prediction of Mortality and Death Time of ICU Patients' using MIMIc III - A Machine Learning Approach — *Machine Learning and Prediction Model*

This is a project based on the MIMIC III database, in which we have developed a machine learning model which will predict the Mortality and Death time of the ICU patients.

Medical Store Management System using PHP and MySQL — *Web App and Database Management*

This is a medical store management system project in which MySQL is used to create the database and store the information in a compact and efficient way. This will reduce the insecurities of the hand operated register system and will automate the whole process.

Advanced Employee Record System — *Database Management and JAVA*

Employee Record System using JAVA and Database Management Systems is one the smartest and innovative projects in terms of automating the record system of various organizations and institutions.

Medicine Charges Analysis for Smokers and Non-smokers — *Machine Learning and Data Analysis*

This Data analysis and data visualization project consists of the fact that the average medicine charges can be changed for the smokers and non-smokers.

Avatar : The Last Airbender [Data Analysis and Data Visualization] — *Machine Learning and Data Analysis*

This project comprises the analysis of all episodes of the cartoon show Avatar : The Last Airbender which was shown in the TV channel named as Nickelodeon in the year 2005 to 2008.

COMPETITIVE CODING

HackerRank : Abhishek Sharma

5 Star at Problem Solving
5 Star at Python
5 Star at C
5 Star at C++
4 Star at Java

CodeChef : Abhishek Sharma

5 Star at CodeChef

LeetCode : Abhishek Sharma

2 Star at LeetCode

InterviewBit : Abhishek Sharma

#1 Rank among UEMK students.
#161 Global Rank.

Coding Ninja : Abhishek Sharma

#567 Global Rank at CodeZen

CodingBlocks : Abhishek Sharma

#2 Global Rank at Coding Blocks
